To ISSOP

Dear Dr. Charles Oberg MD,

The Greek Society for Social Pediatrics and Health Promotion was established in 1988 and has ~1.000 members, mainly pediatricians and academics.

Following the presentation of the Budapest Declaration in "Paidiatriki" journal (Vol. 81, No. 2 2018), the Greek Society for Social Pediatrics and Health Promotion officially endorses the Budapest Declaration and looks forward to advocating the rights of migrant children and youth together with our partners.

The President,

Eleni Petridou MD, MPH
Professor of Preventive Medicine and Epidemiology
Medical School, National and Kapodistrian University of Athens
